

601 Incomplete request ; minimum data is not provided

602 Invalid NCAGE Code or company no longer in operation. No information can be gathered

603 The item of supply you have requested is part of an assembly and cannot be codified on its own. The Reference of the assembly follows. Review and resubmit your request if required

604 Reference Number not known to manufacturer or is not provided for in the standard quoted as a reference number in the originating LSA

605 Submitted Reference does not enable item to be identified

606 The manufacturer will not verify the Reference or would not respond to inquiries

607 The manufacturer refuses to confirm Reference(s) and/or Item Name(s) free of charge

608 Item no longer manufactured ; identification documents can no longer be obtained from the manufacturer

609 Item replaced by following item ; please check whether the new part will meet your requirements and, if so, submit a new request

610 This country is not the country of origin of the item; if known, available information (NCAGE, Reference, country, NSN, etc.) follows

611 This LSA is a duplicate of the LSA submitted under the following Document Control Number or the request has been cancelled by the originating country (fax, E-mail, telephone)

612 Item already codified under the following NSN ; you are already registered as a user

613 Any other reject reason (Code 613 is used to state a reject reason other than those defined by codes 601 through 612)

701 Revised Reference Number ; your request will be processed under the following new Reference Number

702 Revised NCAGE Code ; your request will be processed under the following new NCAGE Code

703 Item already codified under the following NSN ; your country will be registered as a user

704 Any other change(s); your request is processed with the value identified by the code of the data (DRN)
